(PERMANENT) 1910 – 1915 AND 1920-1932, AUSTRALIAN SURVEY CORPS
(PERMANENT) 1915 – 1948, ROYAL AUSTRALIAN ENGINEERS (FIELD SURVEY –
SECOND WORLD WAR) AND ROYAL AUSTRALIAN SURVEY CORPS 1948 – 1996**

VERSION 2024

NOTES AND COMMENTS BY THE AUTHOR - PETER JENSEN

Introduction

This is a Nominal Roll of the Survey Section Royal Australian Engineers (Permanent) (RAE(P)) 1910 – 1915, the Australian Survey Corps (Permanent) 1915 – 1948, including the period of reversion to Survey Section Royal Australian Engineers (Permanent) 1920-1932, the RAE (Field Survey – Second World War) and the Royal Australian Survey Corps (RA Svy) 1948 – 1996. The roll is meant as an unofficial complement to the official history of the Royal Australian Survey Corps 1915 – 1996¹ and as a compliment to all those people who had a part in the events recorded in that history. In part it celebrates the 100th Anniversary of the foundation of the Australian Survey Corps on 1st July 1915. There are some Survey Corps unit nominal rolls from unit histories and unit roll books, unit embarkation rolls during war and Survey Corps and Unit Association member lists, but I believe that this is the only Corps roll.

This nominal roll is not an official authoritative document but it is a collection of information from various sources both official and non-official. The roll includes records of 6,362 men and women who served in these Corps in any capacity and any form of service for any period. It includes members of the Australian Women's Army Service who served with Second World War Australian Survey Corps units and Survey Sections on Formation Headquarters and members of the post-Second World War Women's Royal Australian Army Corps who served in Survey Corps related positions.

This fifteenth version (Version 2024) of the roll replaces all previous fourteen versions with the first version published in 2010. It is published as a document on the Survey Corps Associations internet website with a link on the front page. I intend to publish annual update versions on the website, in the same form, identifying the version by the year. If there are major additions or corrections to the roll throughout the year I will publish an updated version. At this stage I have no intention to provide an on-line update facility. Unfortunately the roll does include unintended errors, omissions and duplications, for which I apologise. If you are aware of these please notify me by email (canberrasvycorpsassoc.pres@gmail.com).

What is new in this version

This Version 2024 includes twelve amendments to the previous Version 2023. This includes adding six people to the Corps Roll of Honour. Five had been Second World War members of the Aust Survey Corps or RAE (Field Survey) units but were serving with other Australian units or services at the time of their deaths and who are commemorated on the Australian War Memorial Roll of Honour - Sapper WG Budge, 2/2 Aust Pioneer Battalion AIF; Flight Sergeant JRW Herps, No 12 Sqn RAAF; Telegraphist C

¹ Coulthard-Clark, CD, 2000, *Australia's Military Map-Makers, the Royal Australian Survey Corps 1915-96*, Oxford University Press

Wilson HMAS Sydney II; Sergeant (Pilot) LG Mackenzie, No 2 Operational Training Unit RAAF and Lieutenant HJ Tamlyn, 21 Aust Field Company RAE AIF. Also added is civilian Mr John Bruce who had not been a member of the Corps or RAE units but was employed by the Aust Survey Corps, probably as a survey hand, on a field survey near Kilcoy QLD at the time of his death two months after the beginning of Second World War. For much of this information I thank Lindsay Wilson a volunteer at the Australian Army Military Intelligence Museum.

Also added to these notes (below) is the list of all fifty members of the Australian Survey Corps (Permanent) at the outbreak of the Second World War on 3 Sep 1939.

Members identified in the photographic collection “Faces of the Corps”

Members who are identified in the photographic collection “Faces of the Corps” created by the late John Mobbs, are identified with a **yellow infill on their name**. There are now about 1,100 names, or about one-in-six on the roll with photographs in the collection. I value greatly the collaboration and support of John to link this roll and “Faces of the Corps”.

Until further notice please send enquiries about “Faces of the Corps” to me by email canberrasvycorpsassoc.pres@gmail.com

RA Svy members still serving in the ADF

One person who I am interested in acknowledging is the last former member of RA Svy still serving in the ADF (full-time or part-time). This list may not be complete but are those still serving in March 2024: Sergeant Clifford Anderson, Captain Sean Collopy, Brigadier Shaun Hoffmann, Colonel Steve Hledik, Wing Commander Daryn Radford RAAF, Warrant Officer Class One Peter Swandale, Commander Chris Topovsek RAN.

Advice on additions and retirements are welcome at any time.

Acknowledgements

There is no one repository of the information needed for production of a roll such as this, and if it was as simple as that it would have been done before now. I have relied on information sent to me by many people (see section Sources and References) who I now thank collectively for being part of this project and providing lists of people and rolls. I also thank everyone who have provided to me comment of corrections, omissions, duplications and encouragement on the previous versions. All of these lists, comments or questions have been addressed and are included in this Version 2024.

It would be remiss of me if I did not mention the special help of Lieutenant-Colonel Greg Tolcher, RA Svy/RAE, Lieutenant-Colonel Wally Rotow², RAEME, and Commander Central Army Records Office (2009-2010) without whose help the computer searches for personnel whose computer and microfiche records include service in the Royal Australian Survey Corps, would not have been done. These searches have provided 3,314 records of those who have served in the Corps since records were kept in those forms. I also make special mention of Barry Lutwyche who has provided to me much appreciated, valued and expert comment over the years.

² Officer in charge Survey Support Section, Sydney Workshop Company (RAEME), attached 4th Field Survey Squadron, Goroka, Papua New Guinea, 1972

The Corps Colonel-in-Chief

The roll includes the Colonel-in-Chief Royal Australian Survey Corps (1 Jul 88 – 30 Jun 96) Her Royal Highness the Princess of Wales, more popularly known as Princess Diana.

Roll of Honour

The roll includes a Roll of Honour of those who served in Australian Survey Corps and RAE Field Survey units who died in war and all members of the Australian Defence Force who died on other operational service outside Australia as part of military survey operations and who are commemorated in the Australian War Memorial Roll of Honour. All of the surnames in the Roll of Honour are 'linked' to their entries in the 'online' Australian War Memorial Roll of Honour.

Included to honour their service and ultimate sacrifice are 2nd Lieutenant Kevin Shoppee, 1st Aviation Regiment, and Flight Lieutenant Ralph Taylor, No 9 Squadron RAAF, who were killed on military survey operations in Papua New Guinea and Indonesia respectively and who were added to the Roll of Honour in 2013. Included is Corporal Ashley Birt, RAE, who never served in the Royal Australian Survey Corps but who was serving with the 1st Topographical Survey Squadron, RAE, when he was killed in Afghanistan in 2011. Added to the roll in March 2015 is Warrant Officer H.E. McMurtrie, Australian Survey Corps, who served with the Australian Naval and Military Expeditionary Force in New Guinea in the First World War and who died in 1919 from service related illness. He is commemorated on the Australian War Memorial Roll of Honour and is the first Australian Survey Corps member to die during war.

Roll entries – 1910 to 1939

The roll includes members of the Survey Section RAE(P), Citizen Military Force officers of the Australian Intelligence Corps posted temporarily (on loan from State Lands Departments) as full-time Survey Officers to Military District Headquarters under whose direction the work of the Survey Section RAE(P) was conducted from 1910 to 1915 and members of the Australian Survey Corps. Included are all-Corps members of the 1st Australian Imperial Force 1st ANZAC Topographic Section (Sep/Oct 1917) – renamed Australian Corps Topographical Section from 1 Jan 1918. This section was not an Australian Survey Corps unit and did not include Survey Corps members until early-1918. But this unit was the first mainly Australian topographic survey unit on active service in wartime and it was the direct ancestral unit of the 1st Topographical Survey Squadron (RA Svy/RAE).

- In October 1938 the government recognised the perilous state of military survey in the context of strategic circumstances, then approving a Long Range Mapping Programme. To give effect to this program the Corps personnel establishment was to be increased to fifteen officers and eighty-two other ranks (all Permanent Force) by 1940/41. This was a four-fold expansion since the 1935 increment of twenty-five and was the establishment at the outbreak of the Second World War on 3 Sep 1939. However, on that day there were nine officers and forty-one other ranks in the Australian Survey Corps (Permanent Force) or about fifty-percent of the approved establishment. There were to be no more Permanent Force appointments or recruits into the Corps until after the war. All new wartime members (initially RAE Field Survey and Aust Survey Corps from mid-1943) were either in the Militia (Citizens Military Force) or Australian Imperial Force. The fifty Permanent Force members of the Corps on 3 Sep 1939 were (*from Fitzgerald, Lawrence, an unpublished compilation of the Survey Corps history, commenced in 1961 – Chapter VII 1932-1939, pages 4-5*):

Note: Aust Survey Corps Headquarters, Cartographic Section and Geodetic Section were part of Army Headquarters, Melbourne. No 2 Survey Section was allocated to 3rd Military District (Victoria) and No 3 Survey Section was allocated to 2nd Military District (New South Wales). When the Geodetic Section was formed in June 1937 it was titled No 4 Survey Section. No1 Survey Section completed its program of work in South Australia in 1938 (commenced by Vance in 1933) and was disbanded.

From 1940 to 1975 all Directors of Survey Army Headquarters were members of the Australian Survey Corps (Permanent) in 1939 - Vance, Fitzgerald, Macdonald, Buckland and Nolan.

Roll entries – 1940 to 1945

Second World War entries include members of the Australian Survey Corps (Permanent), RAE Australian Imperial Force and Militia survey units in the early part of the war, Australian Survey Corps units from June 1943 and members of the Australian Womens Army Service who served in RAE and Australian Survey Corps units and in Survey Sections on higher headquarters. The Second World War still remains the problematic period. Anecdotally there were more than 5,000 members of the Australian Survey Corps during that war. I do not know how this number was arrived at, or how accurate it is. It may have been estimated from the throughput of some units (about three times the establishment for the two Army Topographic Survey Companies) and extrapolating this to the end-of-war Corps establishment of around 1700. To date I have identified 2,433 Second World War members through unit histories, embarkation rolls and unit association lists. In this version the enlist date of 22 Apr 40 is an arbitrary date used for Second World War enlistees for which I have not yet cross referenced to the Second World War Nominal Roll and those who I believe the date refers to their service in the AIF and not their earlier CMF service. I expect that this Survey Corps nominal roll for this era will be greatly improved when personnel service records and official records such as unit Routine Orders Part 2³ are publicly available via the internet, perhaps in the next few years. National Archives of Australia plan on completing digitisation of all Second World War service records (except those who are still with us) by end-2023 and making them open and freely available through their website. This is the era that attracts more questions from family and friends than any other at the moment as people are interested in what their survey soldier relative did in the war.

Roll entries – 1946 to 1996

For post-Second World War records it was not intended to include members of other Corps who served in Australian Survey Corps and Royal Australian Survey Corps units but not in Corps positions. However, for reasons of consistency across all era and the fact that unit roll books such as those from Western Australia, South Australia and Bendigo, include all-Corps members, all who served in Corps units are now included.

I have noticed an apparent gap in official computerised summary lists for some ARA members who discharged about 1972 at the time when ARA personnel records were computerised.

The roll includes exchange personnel from Britain, Canada and the United States as these people were posted into Corps positions. In this version of the roll the list of exchange personnel is incomplete.

The roll includes Lieutenant-Colonel Tom Grice, who was the last officer allocated to Royal Australian Survey Corps but who graduated into Royal Australian Engineers in 1996. His appointments included Officer Commanding 1st Topographic Survey Squadron, RAE. He died whilst serving in 2016 (information received with thanks from Lieutenant-Colonel Daryn Radford).

With the integration of the Royal Australian Survey Corps and Royal Australian Engineers on 1 July 1996, many Survey Corps members elected to transfer to Royal Australian Engineers. Some then served in 1st Topographical Survey Squadron, RAE whose role was to provide topographic support, and more generally geospatial intelligence support, to the Army and the broader Australian Defence

³ Second World War RAE and Aust Svy Corps survey unit Routine Orders Part 2, including personnel transactions, are now 'open' and available at National Archives Australia - Melbourne

Force. That role has since been transferred to the Australian Intelligence Corps and the unit is now a sub-unit of 1st Intelligence Battalion, and retitled as 5 Company based at Gallipoli Barracks, Enoggera, Brisbane.

Notes for fields (columns)

The following notes relate to the fields (columns) in the main part of the roll and are intended to assist the reader to understand the content:

- **Service Number.** Some members had more than one Service Number which was generally associated with different forms of service, for example – Permanent Military Force before, during and after First World War, 1st Australian Imperial Force, Citizen Military Force before and during Second First World War including a State/Territory prefix, 2nd Australian Imperial Force including a State/Territory prefix and X, Interim Army, Australian Regular Army, Regular Army Supplement, the Reserve in its various forms, National Service after Second World War and service in another armed service.
- **Rank.** Rank is the highest worn rank of the member while serving in the Army or another Service. It includes temporary rank and it may be the rank worn in a Corps other than Survey Corps. Some ranks recorded as PTE should be SPR.
- **Retired Rank.** This acknowledges those officers who were retired with a rank higher than the rank they held before retirement, or held honorary rank by appointment as a Colonel Commandant.
- **Surname.** This is the last surname of the member during service. Names may have changed through marriage or deed poll. It may include more than one name, for example married name and maiden name. Names in bold were the nineteen foundation members of the Australian Survey Corps on 1 July 1915.
- **Other Names.** Includes christian names (preferred) or initials if names are not known.
- **Honours and Awards (Military Division).** This includes official honours and awards with respect to military service during wartime and peacetime and those mentioned in despatches in wartime, and allied Government awards during wartime. Included are those awards for which members are entitled to an official post-nominal (<http://www.itsanhonour.gov.au>). It includes awards under the Military Division but not under the General Division.
- **Enlistment Date.** Dates of service are the most problematic. This is intended to be the date of enlistment or appointment in the Army. For those members with more than one form of service, the date may only refer to the last form of service. Unfortunately this is so for the Second World War where many members were first in the Militia and they then volunteered for the 2nd Australian Imperial Force.
- **Discharge Date.** This is the date of final discharge from the Army. Periodic service is included and is meant to include all periods when the member has provided effective service to the Defence Force. It includes Corps transfers or transfers between different forms of service. For those former members of RA Svy who were still serving on 4 August 2016, an open date means that the member is still serving in the ADF (full-time or effective part-time in any Service). For part-time members (the Reserve) the discharge date is meant to be the date of the last effective service and not the final date of discharge. It is possible that enlistment and discharge dates may not reflect a transfer from/to another form of service. This anomaly is evident when comparing rank and apparent service periods.
- **General.** This includes those:

- who died, from all causes, during wartime and other operational service and who are commemorated in the official Australian War Memorial Roll of Honour
- who were wounded in action
- who died while serving full-time or in the Active Reserve
- who were appointed Army Headquarters or Land Headquarters Director of Military Survey or Director of Survey - Army
- who were appointed RA Svy Colonel-Commandant
- who were appointed RSM RA Svy
- who served in 1st ANZAC Topographical Survey Section in September 1917
- who were awarded the Federation Star for 40 years full-time service

Biographical sketches

Appendix 1 is a collection of biographical sketches of the thirty men who worked on a full-time basis with the Survey Section RAE on the military survey of Australia in the period 11th April 1910 to 1st July 1915. All of these men had some part, big or small, in the formation of the Australian Survey Corps as a unit of the Permanent Military Forces on 1st July 1915. They are all worthy of note in this nominal roll. The names are simply in alphabetic order.

Multi-source information

Where members have multiple source information records I have resolved the entry by logical review of all information, usually assigning a greater weight to that from the highest and/or most reliable authority.

Privacy

Those records which were created by official computer searches contain no more information than what is shown in the roll, with the exception of 'final' Corps which is not shown. The fields (columns) of surname, other names, honours and awards, enlist date and discharge date are similar to Government created nominal rolls available on the public internet, for example the Vietnam War Nominal Roll, including details of living persons. Should anyone not want their record in the nominal roll, I will remove it as soon as I am requested to do so.

Service records and a eulogy service

For all ex-service personnel information see <https://www.defence.gov.au/about/accessing-information/personal-information-requests>. The telephone number is 1 800 333 362

Conclusion

A project such as this is never complete, or totally correct, and I now look forward to continuous improvement of the quality of the roll through advice and comment to me by all who are interested. I hope that you enjoy the read.

Kind regards

Peter Jensen

Appendix 1

A biographical sketch of the thirty officers and soldiers who worked full-time with the Survey Section RAE (Permanent) on the military survey of Australia in the period 11th April 1910 to 1st July 1915. All of these men had some part, big or small, in the formation of the Australian Survey Corps as part of the Permanent Forces on 1st July 1915 and are worthy of special note in this nominal roll. The names are simply in alphabetic order.

Adiel John Lupton **ANDERSON**, was born in 1893 at Toolamba, Victoria. He enlisted as a Corporal topographer in the Survey Section Royal Australian Engineers (Permanent Forces) on 1 January 1914 (before the First World War) serving with No. 2 Sub-Section based in the 2nd Military District NSW employed on military survey (topographic mapping) around Sydney/Newcastle. He was transferred to the Australian Survey Corps (Permanent Forces) when that Corps was formed on 1 July 1915. In August 1917, he enlisted in Sydney as a Private in the 1st Australian Imperial Force (AIF) Australian Flying Corps but was still at Laverton, Victoria when the Australian Survey Corps (AIF draft) assembled in November 1917.
