ANZAC DAY MARCH SYDNEY 2026

The weather was kind to the organisers of the ANZAC March it was a beautiful Autumn Day with the crowds lining the streets once again.

On going wars in Middle East and Ukraine would have been at the forefront of those marching and members of the public as they watched the march down Elizabeth Street.

Once, again we had support of uniformed troops from the Geomatic Intelligence Wing. We appreciate the Geomatic Intelligence Wing for organising the military contingent and their transport.

Our numbers are in decline there were 10 ex Survey members at the march. I was remiss in not getting more photos, especially one of everyone formed up (old age is setting in I'm afraid). It was the biggest group I've experienced for some years. We had the usual troop support from the Geomatic Intelligence Wing (GIW). There were also members that are doing a Sergeant's course at GIW. As well as these there was: The Wing Sergeant Major of GIW, WO 2 Rachael Baron. Cpl Reading led us in the march.

Phil, Bob, Grant, John and myself went to "Harpoon Harrys" pub and spent a few hours over a beer or two.

Regards, Frank Fischer

Attending Ex Survey Corps members; Frank Fischer, Grant McGuinness, Terry Topham (Marching for his father), Tom Stockwell, Phil Bannister, John Siddons, Andrew Wardele, Bob Campbell.

Attending Serving members; WO1 Grahame Symes, WO 2 Rachael Baron plus 14 uniformed personnel who maned our banner looked smart.

Apologies. Richard Jackson-Hope, Rob Hunter, Greg Grace & Darcy Volz.

A big thanks to Frank Fischer for organising with the RSL and the Army to facilitate our attendance at the 2026 march.

Note: All the past ANZAC Day post march newsletters are on the web site rasvy.org follow the link to NSW.

From Left to Right Tom Stockwell, Grant McGuiness Bob Campbell, Andrew Wardele, Phil Bannister, Frank Fischer, John Siddon, Terry Topham.

Information for Royal Australian Survey New South Wales collection.
